EXPERIENCE

Team Lead   Dec 2024 - Aug 2025
OrbosAI   *Moscow*

- Introduced AI-driven workflows to the team, resulting in a 440% increase in productivity.
- Integrated over 20 external API services, expanding the app's capabilities and user base.
- Pioneered the first video editor within Telegram, enabling seamless multimedia content creation for users.

Full-Stack Developer   Nov 2023 - Dec 2024
Hunt.ME   *Remote*

- Automated key HR workflows, reducing manual effort and improving placement speed by 30%.
- Revamped the company's CRM platform, transforming it from an underutilized tool into an essential part of daily operations by focusing on usability and modern design.
- Provided training and support for the new CRM, ensuring a smooth transition and rapid adoption across the company.

Full-Stack Developer   2020 - 2023
Freelance   *Remote*

- Completed 30+ small- to medium-sized projects on Fiverr and Upwork.

PROJECTS

AI-CRM Platform. Independently developed a CRM platform currently managing over 5,000 customers. Deployed AI-driven agents, resulting in a 20x increase in customers managed per employee.

Telegram mini-app for AI content generation. Created a Telegram mini-app utilizing AI to automate content generation, enabling users to produce high-quality content with minimal effort. Integrated the first video editor within Telegram and connected over 20 API services.

Freelance Budget Management tool. Built a comprehensive mobile app for freelancers to manage budgets, monitor cash flow, and generate tax reports effortlessly.

All projects are available on my [portfolio].
